

E B L Fire Engineering

FIRE PROTECTION INTERN OPPORTUNITY

February 14, 2008

E B L Fire Engineering is seeking a fire protection student for immediate part time work in the Bethesda, Maryland area that would lead to a full-time summer internship at our Bethesda or Baltimore, Maryland office.

Our fire protection engineering group was formed in 1988 and has steadily expanded to employ several Maryland Fire Protection Engineering graduates.

The work involves assisting our engineering staff in fire protection and life safety related project tasks in a campus setting. This is an excellent opportunity for students to gain valuable fire protection experience.

EBL is a multi-discipline engineering firm offering mechanical, electrical, fire protection and structural engineering services.

Please visit our website at www.eblengineers.com

Please forward letters of interest and/or resumes to our home office, attention Edward M. Fraczkowski, PE and Jeffery P. McBride, PE. E-mail expressions of interest are acceptable.
