

The Central Intelligence Agency announces an opening for a fire protection engineer located in McLean, VA. The qualified candidate must have a B.S. or higher degree in fire protection engineering from an accredited college or university by May 2010. The selected candidate's employment with the Agency is contingent upon successfully completing an applicant screening process which includes; a thorough medical examination, full scope polygraph interview, and an extensive background investigation. The screening process can take up to a year to complete. The Central Intelligence Agency is an equal opportunity employer.

Job Description: Review architectural plans and specifications for code compliance for new construction and major renovations; provides technical guidance in fire protection regulations and standards; conducts fire protection engineering surveys of Agency facilities; designs fire protection and detection systems; inspects and tests for acceptance all fire protection systems to ensure operation in accordance with Agency requirements; conducts fire investigations. Additionally, as required; assists in the installation and maintenance of fire detection and suppression systems in Agency locations worldwide.

Minimum Qualifications: Citizen or naturalized citizenship of the United States of America. B.S. or higher degree in fire protection engineering from an accredited (Accreditation Board for Engineering and Technology (ABET)) college or university. Preferred candidate must be able to; climb and work from a ladder; be mechanically inclined and be able to work with power tools; work from heights; and the ability to travel both domestically and overseas. EIT or PE (discipline of fire protection engineering) by any State is preferred.

Salary Range: Dependent upon satisfying Agency benchmarks consisting of combination of education, experience, and professional certification.

Point of Contact: Candidate should fax their resume and salary requirement to the attention of: Roy W. Schwarzenberg, P.E., at (703)747-2994.
