

JOB OPPORTUNITY

Clark Nexsen is a multi-discipline A/E firm founded in 1920 and headquartered in Norfolk, Virginia. Ranked at 278 in the ENR Top 500 Design Firms Sourcebook for 2008, our design teams specialize in offices, schools, commercial, retail, recreational, manufacturing, government and military facilities. 2008 was the most successful year in our history, and we are anticipating continued growth through 2009.

We are seeking an entry-level fire protection engineer. Typical job functions include preparation of construction drawings and specifications, detailed system layout, shop drawing review and approval, acceptance testing and other construction administration functions. A solid knowledge of fire dynamics and fire modeling will be highly regarded.

The ideal entry level candidate will have a B.S. degree in Fire Protection Engineering from an ABET accredited university, have successfully passed the Fundamentals of Engineering examination and be seeking registration as a professional engineer.

Clark Nexsen offers an excellent salary and benefits package, including a 401K retirement plan, health insurance (including a new health savings account option), life and disability insurance, and possible incentive compensation.

Clark Nexsen is an equal opportunity employer with long term employee retention.
