IMMEDIATE OPENING

Fire Protection Designer

- Title:** **Fire Protection Designer**
- Location:** Duluth, Georgia (Metro-Atlanta)
- Essential Responsibilities:**
- Responsible for fire protection design tasks including: sprinkler layout, pipe sizing, hydraulic calculations, fire pump selection, fire alarm, and fire suppression system layout.
 - Responsible for review of fire protection system contractor shop drawings, equipment information, hydraulic calculations, agent flow calculations, and battery/voltage drop calculations for conformance with all applicable requirements. Must also provide written comments.
 - Responsible for performing on own or assist other engineers with research, water supply testing and analyses, calculations, field surveys, fire protection system inspections, construction observations, and acceptance testing.
- Qualifications:**
- **Education and/or Experience:** AutoCAD experience is required. Associate's degree in fire protection engineering technology from an accredited or certified program is preferred. Other comparable education will be considered. NICET Level II or higher certification in one or more of the following areas is preferred: automatic sprinkler system layout, fire alarm systems, or special hazard suppression systems. Three to five years of progressive experience performing engineering designer/technician and CAD tasks in the employ of a fire protection systems contractor or engineering design and consulting firm is preferred.
- Strong written and verbal communication skills with the ability to effectively interact with co-workers and clients are required.
- **Certificates, Licenses, Registrations:** NICET Level II or Higher (Preferred), Valid driver's license (required), U.S. Citizen or valid work permit (Required)

Additional Information

- Compensation and Benefits:** Compensation will be based upon individual experience and potential, and will be competitive. The benefit package includes major medical, dental, and vision. We also offer short-term and long-term disability, 401(K), and an annual cash bonus based upon company and individual performance. A generous paid-time-off plan is also provided.

**Company
Information:**

Harrington Group, Inc. was founded in 1986 in Atlanta, and has since grown to become one of the largest firms dedicated solely to Fire Protection engineering design and consulting headquartered in the southeast. We enjoy a national reputation for honest and hard work, creative solutions, and exceptional value delivered to our clients.
