

Fire Protection Engineer

A mid-size A/E firm, **Sherlock, Smith & Adams, Inc.**, has need for a **Fire Protection Engineer**.

Degree is required and registration, or future registration, is also mandatory. Firm offers candidate the opportunity to be mentored by one of the country's most experienced Fire Protection Engineers.

Design of commercial, healthcare and public facilities, national and international, is this firm's specialty.

Ideally, the successful applicant for this position will have knowledge of Life Safety Code Analysis, some knowledge/experience in Fire Alarm Design and Fire Suppression (Sprinkler) Design.

Requirements

Fire Protection Engineer Requirements

- College degree in fire protection engineering.
- *Experience preferred.*
- Registered as a Professional Engineer, or future registration is required.

If you are interested in developing a long-term career with a variety of building design experience with a firm that is large enough for national recognition but small enough to give you direct mentoring and hands-on experience, submit your resume to [\[Click Here to Email Your Resumé\]](#) (or fax to 334-230-0608).

The firm offers generous benefits and also the possibility of equity ownership in the future.
