

## **E B L Fire Engineering**

### **SENIOR FIRE PROTECTION ENGINEER**

**March 12, 2008**

**EBL Fire Engineering is expanding its code consulting group and is looking for a talented, versatile, and people-oriented senior-level fire protection engineer to join our firm. The position is responsible primarily for code consulting projects, but may include some interaction with others focused on design services. On-site inspections and meetings are regular. Very limited out-of-area travel may occur. Very strong communication and inter-personal relationship skills are essential. The position will also assist in continued development and implementation of a strategic business plan.**

**EBL Fire Engineering offers a competitive salary and potential for performance bonuses. EBL's benefit package includes: a 401K with corporate matching and participation in medical, dental, vision, and life insurances. Preference will be given to candidates with:**

- Minimum of a B.S. in Fire Protection Engineering**
- Possession of a valid Professional Engineering license in the State of Maryland**
- 7+ years experience in fire protection engineering or consulting**
- Previous experience focused on consulting with codes and standards**
- Some experience with computer fire models and performance-based design**

**Our fire protection engineering group was formed in 1988 and has steadily expanded to employ several Maryland Fire Protection Engineering graduates. Our work facility is spacious and provides state of the art information technology assets in a great work environment.**

**Please visit our website at [www.eblengineers.com](http://www.eblengineers.com)**

**Please forward letters of interest and/or resumes to our home office in Parkville, attention Karl D. Houser, P.E. and Jeffery P. McBride, P.E. E-mail expressions of interest are acceptable. All resumes and shown interest will be kept confidential. EBL is an Equal Opportunity Employer.**
