

**HDR, INC.**  
Omaha-NE

**Fire Protection Engineer**

Full Time  
College Degree

**Company Description:**

HDR is an employee-owned architectural, engineering, planning and consulting firm that excels at helping clients manage complex projects and make sound decisions. Approximately 7,400 professionals, including architects, engineers, consultants, scientists, planners and construction managers, in more than 165 locations worldwide, pool their strengths to provide solutions beyond the scope of traditional A/E/C firms.

**Description:**

HDR Engineering, Inc. currently has an opportunity for a Fire Protection Engineer to work as part of our Corporate Headquarters design center in Omaha, NE. They will be responsible for leading complete designs on multiple types of fire suppression and detection systems. Provide fire protection expertise in fire protection designs including: detailed system calculations and layouts, hydraulic calculations, detection system design, drawing production, master specification editing, and construction cost estimating. Provide Code compliance reviews for all types of facilities with specialized focus on the fire protection design for facilities.

May also establish meetings and participate in reviews with various governing agencies for code compliance, and will be responsible for coordinating workloads to complete the documents on schedule. They will also conduct work sessions at project sites in conjunction with Project Managers and other disciplines, and review fire protection documents for areas of conflict with all disciplines.

**Experience Required:**

Bachelor's or Master's degree in Fire Protection Engineering or related field. Hold registration as a fire protection design professional.

5+ years experience in fire protection design for federal and/ or industrial facilities.

Must have previous experience with an architectural/engineering or engineering consulting firm.

Experience and/or interest in sustainable design/LEED desired but not required.
