

## **Risk Control – Property Specialist**

**Location: Orange, CA., Glendale, CA. or Diamond Bar, CA.**

**That's Travelers. We are one of the leading insurance companies in the United States. Our superior financial strength and consistent record of strong operating returns mean security for our customers - and opportunities for our employees. You will find Travelers to be full of energy, and a workplace in which you truly can make a difference. [www.travelers.com](http://www.travelers.com)**

### **SUMMARY:**

Minimum of 10 years experience preferred in fire protection engineering with emphasis in HPR insurance loss control. Reports to Director, Technical Unit. Delivers specialty services to assigned accounts. Provides technical training to Risk Control generalists. Handles accounts on a national or multi-regional basis.

### **PRIMARY DUTIES:**

Survey applicant and insured facilities for fire, smoke, explosion, and other property loss potential. Locations surveyed are generally high value manufacturing and warehousing properties with complex exposures to loss, and require accurate exposure analysis and PML & likelihood of loss estimations.

Witness tests and assess reliability & adequacy of fire protection equipment.

Review plans for new construction, including hydraulically designed sprinkler systems, fire alarm and detection systems, fire pumps, chemical & gaseous agent fire protection installations, and combustion controls.

Serve as a technical resource to Risk Control generalists and Account Executives (Underwriting).

Consult with clients on ways to control hazards in order to reduce or prevent losses. Influence clients to implement recommendations.

Assist in the writing of technical documents and bulletins for use by our Risk Control generalists, underwriting business partners, or customers and insureds.

Provide property loss control training assistance to Risk Control staff in the form of workshop participation, co-surveys, and information transfer.

### **COMMUNICATION SKILLS:**

Makes complex technical information and recommendations understandable and clear to audiences with varied levels of technical knowledge

Influences others to take action on recommendations

Listens effectively

Strong oral and written communication skills

**OTHER:**

Resource Management:

Continually assesses workload in light of business priorities; directs own efforts accordingly.

Identifies methods for improving personal productivity

Makes sound judgments about appropriate service levels for customers
