Lab Engineer

Position: Engineer

Position Type: 2017-507

Location: Beltsville, MD

FT/PT Status: Full Time

Job Description:

JENSEN HUGHES has a job opportunity for a talented engineer in Beltsville, MD with interests in fire research, testing and instrumentation. The position will join an existing team that provides specialty support services to our customer at the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) Fire Research Laboratory (FRL).

The position will use instrumentation and laboratory test equipment for small and full-scale fire experimentation to support ongoing arson investigations. You will join a dynamic team of engineers and will provide technical support from the design phase through data acquisition, collection and reporting on experiments. Working at a state-of-the-art lab, you will have unique experiences and opportunities to excel in your career.

Requirements:

• BS or Master’s degree in a Science or Engineering field with laboratory experience.
• Demonstrated experience in conducting experiments and using data acquisition systems.
• Demonstrated computer skills
• Candidates will be required to pass a background investigation conducted by the ATF that will include subjects such as debt, arrests, DUI, and drug use in the past 3 years.
• US citizenship is required, along with a formal and in-depth security screening.

JENSEN HUGHES is a global leader in specialty engineering and consulting services for the built environment. We are a company of engineers, consultants, and scientists focused on evaluating risks and diligently developing the best, most cost effective protection and safety solutions. We offer extensive, practical experience through countless projects, research and industry innovation. Our global clients include numerous Fortune 500 companies that encompass architects, designers, general contractors, developers, building owners, and facility operators, government, product manufacturers, and insurers. Our engineers and scientists provide the industry’s most comprehensive testing and computer modeling services for assessing, developing, and implementing solutions to client’s problems outside the current code or design provisions. Testing is performed in our 8,000 sq. ft. Baltimore, MD laboratory while computer modeling and software development is conducted on computer clusters with specialty software for unique, challenging problems.
Vision:

Core Values:
- Always DO the Right Thing
- Technical Excellence
- Client Focus
- Innovate and Collaborate
- Professional Growth
- Promote Diversity

Mission:
Advancing the Science of Safety to address important threats and hazards where our clients live and work.

CAREERS AT JENSEN HUGHES

Choosing the right place to work is a tough decision. Compensation, location and career path opportunities are all important factors, but in the end, doesn't it come down to what you'll be doing with your talent every day? At JENSEN HUGHES, we help to save lives and protect property and assets. Our Mission is Advancing the Science of Safety.

In addition, you will be joining an organization where you can collaborate and grow your career with top industry experts as well as recent grads from some of the nation's top schools.

Due to the nature of our business and compliance with US Federal contracting and Export Laws, certain positions have additional employment requirements, which place restrictions on the transfer of knowledge outside the United States. Positions with these legal requirements will make it necessary for us to know the country(s) in which you hold citizenship status. Other requirements can include background checks and/or pre-employment physicals.

JENSEN HUGHES verifies eligibility to work in the United States using the Department of Homeland Security's E-Verify system.

JENSEN HUGHES is an Equal Opportunity Employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, or any other characteristic protected by law.

Equal Employment Opportunity is The Law

NOTE TO 3rd Party Staffing Agencies - JENSEN HUGHES is not seeking assistance from outside agencies. Unsolicited resumes sent through our website or to our employees will not be acceptable as services.
SUMMARY OF BENEFITS
